

KLove is a great radio station that serves this local community. It always has positive and encouraging words for the family, including children and young adults. There is never a worry that something should be monitored for children to hear. KLove also provides a community calendar for people to submit information that may be for the public interest. We can find out about the activities of local churches and other community events. Without KLove I would not listen to the radio. Therefore I feel that I would not be the only one effected by Klove being replaced by an LPFM broadcaster.
